

Master of Sustainability: Regenerative Sustainability Program Structure (MSs Regen)

DRAFT for 2023–2024

Characteristics of the MSs Regenerative Sustainability program:

- **30 credit** unit program
- **2-year program** with only one intake a year (September)
- **Online** and **on-campus** options
- Courses are delivered in **sequential order** (not concurrently)
- **Project-based** option—**6 required** courses (12 cu), **4 electives** (12 cu), and **1 project** course (6 cu)
- **Course-based** option—**6 required** courses (12 cu) and **6 electives** (18 cu)
- **Required courses:** ENVS 818.1, 807.3, 850.1, 851.2, 853.3, 886.2
- All courses are offered in a **compressed** format with 2 weeks per credit unit (1 cu course = 2 weeks, 2 cu = 4 weeks, 3 cu = 6 weeks)
- Online courses will have both **asynchronous** and **synchronous** activities.
- Tuition is assessed on a **per credit unit** basis (i.e., pay as you go).

Draft Program Structure for 2023–2024

**Course descriptions can be found in the [University Catalogue](#).

NOTE: Course order and sequencing may change. The schedule will be finalized in late spring 2023.
