

Master of Sustainability: Regenerative Sustainability Program Structure (MSs Regen)

Characteristics of the MSs Regenerative Sustainability program:

- **30 credit** unit program
- **2-year program** with only one intake a year (September)
- **Online** and **on-campus** options
- Courses are delivered in **sequential order** (not concurrently)
- **Project-based** option—**6 required** courses (12 cu), **4 electives** (12 cu), and **1 project** course (6 cu)
- **Course-based** option—**6 required** courses (12 cu) and **6 electives** (18 cu)
- **Required courses:** ENVS 839.3, 807.3, 852.3, 853.3, 990.0
- All courses are offered in a **compressed** format in 6 weeks
- Courses will be delivered in a **hybrid** format to accommodate both in-person and online students and the courses will have both **asynchronous** and **synchronous** activities (blended)—the *Hybrid Blended* model.
- Tuition is assessed on a **per credit unit** basis (i.e., pay as you go).

Program Structure for 2024–2025

**Course descriptions can be found in the [University Catalogue](#). *NOTE: Course order and sequencing may change.*
